Listening songs

## PROFESSIONAL SUMMARY

Fresher with a strong foundation in Java programming. Eager to kickstart a career in IT, with a focus on collaborative problem-solving and continuous learning. Ready to contribute enthusiasm and dedication to the field of technology.

## ACADEMIC PROJECT

- Built a Stationery Management System: Created this system from scratch to help a stationery shop track items, sales, and stock levels.
- Used VB.Net, C#, and MySQL: Combined these tools to handle both the front end (user interface) and back end (data and processing).
- Made it easy to use: Focused on a simple design so staff could easily add and check items, sales, and reports.
- Improved accuracy and safety of data: Ensured that all records were stored safely and kept up-to-date in MySQL.

## CERTIFICATIONS

- Java beginner-2023 Course provided by Great Learning
